The following figures show the program output at the times required by the scenario.

Status Check at 8:35 a.m.

Figure 1. Package status at 8:35 a.m. All forty packages are visible on their assigned trucks. Packages 6, 9, 25, 28, and 32 appear in “delayed” status. Packages 2, 7, 14, 15, 16, 29, 33, and 34 are already delivered. Truck 1 is en route. Truck 2 packages remain at the hub because that truck does not depart until 9:05 a.m. Truck 3 packages also remain at the hub because that truck has not yet departed.
